

Sanitaire Bio-CAPs™

Urinal Cap containing Biological Urinal Blocks

The Sanitaire Bio-CAPs™ containing Biological Urinal Blocks have been specially formulated to reduce odour problems and blockages in urinals. Strains of friendly bacteria are used to remove fats, uric-scale and solids that build up in urinal traps and pipe work causing odours and blockages. Citrus perfumed and water soluble, the biological urinal blocks efficiently eradicate the source of this problem, providing substantial savings on washroom maintenance.

- ✔ Biodegradable
- ✔ Removes the cause of odours
- ✔ Suitable for all types of urinals and troughs including stainless steel, porcelain and ceramic
- ✔ Prevents blocked traps and pipes
- ✔ Quantifiable savings on water bills
- ✔ Contains odour neutralising perfume
- ✔ Cleans and freshens
- ✔ Safer to use and not harmful under COSHH

TECHNICAL INFORMATION

The Biological Urinal Blocks contain a selection of non-pathogenic micro-organisms, a blend of cleaning and water-softening agents, and a special odour-blocking perfume & colour.

DIRECTIONS

Place one Sanitaire Bio-CAPs™ in each urinal.

For maximum efficiency, replace when the Biological Urinal Blocks have dissolved.

**IDEAL TO USE WITH SANITAIRE BIO-CLEANER™
WASHROOM CLEANER & ODOUR NEUTRALISER**
