

Sanitaire Sta Kill

Biocidal Cleaner and Deodoriser

A powerful cleaner containing selective biocidal agents, deodoriser and urine stain neutraliser with proven efficacy against a wide range of bacteria, fungi, mould, yeast and algae. Sanitaire Sta Kill is the professional's choice for eradicating malodours. Having a neutral pH, Sanitaire Sta Kill may be used safely on all surfaces including carpets, fabrics, wood etc. and is excellent when used as a pre spray for soiled items prior to machine or hand washing.

Sta Kill may also be added to cleaning detergents to add fragrance and odour neutralising properties.

When tested to BS EN1276, Sanitaire Sta Kill passed against the following organisms:

E. Coli, P. Aeruginosa, S. Aureus, E. Hirae, and tested to BS 13727 against MRSA

- ✔ Tested to EN1276 & EN13727
- ✔ Fast acting—instantly deodorises
- ✔ Economical to use
- ✔ pH neutral for use on all surfaces
- ✔ Dilutable up to 5:1

DIRECTIONS

Spray affected area with a fine mist when treating carpets, upholstery, bedding, car & caravan interiors etc. May also be used in conjunction with damp mopping or cleaning tiled floors and work surfaces. On severe pet odours please note that it may be necessary to treat carpet underlays and backings of carpets as well as the surface fibres.

PET STAIN NEUTRALISING

Spray stained area and blot out using absorbent tissues. For old stains, spray and leave for 5 minutes before cleaning.

CAUTIONS

Avoid contact with polished wood. Treatment of sheer fabrics should be complete and in fine mist form only to avoid water marking. Use biocides safely. **Always read the label and product information before use.**
